**SUPPLEMENTARY INFORMATION:****Background**

Under the provisions of the Endangered Species Act of 1973 (Act) as amended (16 U.S.C. 1531 *et seq.*), the Service approved the revised Grizzly Bear Recovery Plan on September 10, 1993. In May 1994 The Fund For Animals, Inc., and 22 other organizations and individuals filed suit in the U.S. District Court for the District of Columbia over the adequacy of the Plan approved in 1993. Later in May 1994 the National Audubon Society and 19 other organizations and individuals also filed suit in the same court. The two cases were eventually consolidated. In September 1995 the court issued an opinion. The motions for summary judgment of both the plaintiffs and the defendants were granted in part and denied in part. The court ordered the Service to reconsider certain portions of the Plan, and to provide supplemental information. The information presented in the document being made available for review includes supplemental information that the Service was to

provide and the results of its reconsideration.

Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. The Service and other Federal agencies also will take these comments into account in the course of implementing approved recovery plans.

**Public Comments Solicited**

The Service solicits written comments on the supplemental information described above. All comments received by December 1, 1997, will be considered prior to finalization of the information. Appropriate portions of the information will be appended to, and become part of, the Plan.

**Authority**

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: October 29, 1997.
